

PDF LIST OF FACTS ABOUT CAT

Cats have supersonic hearing

The ability of a cat to find its way home is called “psi-traveling.” Experts think cats either use the angle of the sunlight to find their way or that cats have magnetized cells in their brains that act as compasses.

Ancient Egyptian family members shaved their eyebrows in mourning when the family cat died.

One reason that kittens sleep so much is because a growth hormone is released only during sleep.

A cat can’t climb head first down a tree because every claw on a cat’s paw points the same way. To get down from a tree, a cat must back down.
